

The global market for automotive turbochargers: 2005 edition

This exclusive report from ABOUT Automotive and Auto Research Analysts reviews the key market drivers for turbochargers for both the passenger car and commercial vehicle markets, providing some forward-looking analysis.

Examines every major market, providing 25 detailed market share pie charts

In addition, this second edition provides detailed market share analysis of the turbocharger market in Europe, North America, South America, Japan, Asia, South Korea, India and worldwide. All in all, this report provides no less than 25 detailed market share pie charts, providing unrivalled market intelligence. Who leads the Indian turbocharger market? How will the South Korean diesel turbocharger market change and who will lead it by 2010?

Detailed market installation, volume and value forecast data through 2010

It also provides detailed analysis of turbocharger market volume, value and forecast data and interpretation through 2010 for passenger car and commercial vehicle applications. The forecasts for OE volumes and values in this report are not extrapolative — based simply on trends — but dependent on the underlying drivers of supply and demand. Our estimates are supported by interviews with experts at components manufacturers and OEMs across Europe, North America and Japan. How fast is the European gasoline turbo market growing? What will the market look like in 2010? Who will lead it?

If you are looking for detailed market analysis of the global turbocharger market, addressing the key issues facing the industry with a useful round-up of the main manufacturers' business activities, this report provides it. Competitively priced, it builds on the popular first edition extending the analysis, region by region, for both passenger car and commercial vehicles, examining how the sector is shaping up.

Comprehensive study addressing the key issues

This report addresses a number of topical issues facing the turbocharger market, including:

- How will boosting technology evolve through this decade?
- Who is leading the turbocharger markets and how are their positions changing?
- What are the opportunities for turbocharging in the emerging market?
- Who is supplying into these markets? How are they doing it? Who with? Who to? From which location?
- What is driving the development of gasoline turbocharging technology?
- Are the issues for gasoline turbocharging the same across the world for OEMs?
- What will be the key technological developments in gasoline boosting?
- Where are the greatest opportunities for gasoline boosting?
- What are the implications for the turbocharger aftermarket?

Manufacturer profiles

The report also provides brief profiles of the major manufacturers of automotive turbochargers. It includes analysis of the major competitors in the turbocharger segment, including revenues and product service offerings. The manufacturers themselves include:

- BorgWarner
- Holset
- Honeywell Turbo Technologies
- Ishikawajima-Harima Heavy Industries (IHI)
- Mitsubishi Heavy Industries (MHI)
